

Sandbox Testing Environment

The new sandbox environment is now live and fully functional at cp.sandbox.openprovider.nl. It has been validated by QA and supports all products and functionalities.

Please note: this is a new environment, so you will need to create a new account to access it - existing credentials from the previous sandbox will not carry over.

This article contains all basic details you need to know about the Openprovider Sandbox environment.

What is sandbox?

The sandbox is an isolated testing environment that enables resellers to test RCP (Reseller Control Panel) and API operations without buying real domains, products.

You can sign up for a new Sandbox account at: <https://cp.sandbox.openprovider.nl/signup>

* The old *CTE environment* (api.cte.openprovider.eu & cp.cte.openprovider.eu) is not available anymore.

Sandbox RCP (Reseller Control Panel) URL: <https://cp.sandbox.openprovider.nl>

Sandbox API URL: <https://api.sandbox.openprovider.nl/v1beta/> (To enable API access, please refer to this [article](#).)

Openprovider API Documentation: <https://docs.openprovider.com/doc/all>

REST API examples: [API Guides: Customer & Domain Modules](#) (**Important:** Please ensure to replace API URL with Sandbox API URL).

Example Sandbox API Endpoints:

- **Authentication:** <https://api.sandbox.openprovider.nl/v1beta/auth/login>
- **Create a Domain:** <https://api.sandbox.openprovider.nl/v1beta/domains>
- **Check a Domain:** <https://api.sandbox.openprovider.nl/v1beta/domains/check>

- **Get a Domain:** <https://api.sandbox.openprovider.nl/v1beta/domains/{id}>
- **Create Contacts:** <https://api.sandbox.openprovider.nl/v1beta/contacts>
- **Get a Customer:** <https://api.sandbox.openprovider.nl/v1beta/customers/{HandleId}>
- **List Transactions:** <https://api.sandbox.openprovider.nl/v1beta/transactions>

XML API

- **XML URL:** <https://api.sandbox.openprovider.nl>
- **XML API documentation:** https://doc.openprovider.eu/Main_Page

EPP

- **EPP endpoint for Sandbox:** <https://epp.sandbox.openprovider.nl>
- **EPP documentation:** https://doc.openprovider.eu/EPP_Index

Important Tips:

Be aware, the Sandbox Environment has some limitations :

- Does NOT support domain transfers.
- Not all TLDs will be available in the test environment, depending on the availability of a test environment at the registry.
