

How to follow price changes

Question

How one can follow currently available promotions, discounts and price changes?

Answer

The information about all current discounts and promotions is available on our [Promotions](#) page on the public website.

All prices are subject to VAT. The prices do not apply to multi-year registrations, transfers or renewals and premium domains unless stated differently.

Important price changes are communicated upfront in our monthly [newsletter](#) which can also be found on our website.
