

.africa

This article describes the procedures and requirements of .africa domain names.
Click on the subject below to open the dropdown for more information.

Registration

Successful domain registration via RCP or API requires:

- two or more nameservers or a nameserver group
- registrant [e-mail address verification](#) applies
- A domain name may not be 2 Characters long. 2-Character domain names are designated as reserved names and may not be registered

Transfer

Successful domain transfer via RCP or API requires:

- authorisation code
- two or more nameservers or a nameserver group
- registrant [e-mail address verification](#) applies

During the transfer period which can take 6 days, the current provider or the owner can reject to the transfer.

The registration period after a successful transfer will [extend with 1 year](#), unless the transfer is ordered within the domain's auto-renew grace period at the previous registrar.

Problems transferring your domain?

Please take a look at this [extended article](#) for possible solutions.

Authorization code required	yes
Method of confirmation	authcode,email
Registration period after transfer	extends
Average transfer time	Max. 6 days

Advanced and simple transfers available

Contact our [Sales department](#) to check if easy transfer of 100 or more .africa domains is available.

Update

Owner change (trade)

- requested as a normal domain update via RCP or API
- processed realtime
- both previous and new registrant will receive an e-mail. This is a notification only, no action is required.
- registrant [e-mail address verification](#) applies

Other update

- requested via RCP or API
- processed realtime

If as part of the update the domain owner's e-mail address changes, we're obliged to start a [contact verification process](#) if this new e-mail address was not verified before.

Deletion / Restore

Delete

Explicit delete

- Requested via RCP or API
- processed realtime
- will directly result in quarantine (redemption period) (**no** soft quarantine applies)

Expiration

In case the domain expires (not renewed in time);

- will be deleted directly at the registry

- processed realtime
- will directly result in quarantine (redemption period) (**no** soft quarantine applies)

Restore / reactivate

- restore / reactivation supported via RCP or API
- Domain may be restored in the first 10 days of Redemption Period
- After this period, the domain enters a "Closed Redemption Period" where the domain may be restored, but at a premium price which is decided by the .AFRICA Registry, please note that this operation is not automated, you need to contact our Support Department for this.
- quarantine periods can be found under
