

.ax

This article describes the procedures and requirements of .ax domain names.
Click on the subject below to open the dropdown for more information.

Registration

Successful domain registration via [RCP](#) or [API](#) requires:

two or more nameservers or a nameserver group

- If the owner is a legal entity, the company registration number is required.
- If the owner is a private individual, the number of passport / ID of the owner is required.

Transfer

Successful domain transfer via [RCP](#) or [API](#) requires:

- authorisation code
- two or more nameservers or a nameserver group

Authorization code required	yes
Method of confirmation	authcode
Registration period after transfer	unchanged
Average transfer time	Not Realtime
Advanced and simple transfers available	Contact our Sales department to check if easy transfer of 100 or more .ax domains is available.

Update

Owner change (trade)

- requested as a normal domain update via RCP or [API](#)
- processed realtime

Other update

- requested via RCP or [API](#)
- not processed realtime

Deletion / Restore

Delete

Explicit delete

- .ax domains cannot be deleted explicitly.
To delete a .ax domain, you have to set the domain renewal mode to **OFF**.

Restore / reactivate

- Restore / Reactivation is not supported for this ccTLD.

Detailed extension information

Due to the regular changes in registry rules and configuration or missing information from registry side, and despite our effort to keep our knowledge base up-to-date, information in the knowledge base may be outdated or incorrect. If you encounter some issue, please report it through the "HotJar" feedback collector on the bottom right, or (if it is blocked by your browser) by clicking the

"Submit a request" link below. No rights can be derived from the information in this knowledge base. If there is discrepancy between the knowledge base and the process in Openprovider, the process in Openprovider is leading.
