

.bg

This article describes the procedures and requirements of .bg domain names.
Click on the subject below to open the dropdown for more information.

Registration

Successful domain registration requires:

- Registrant handle with the following additional information:
 - **For companies (company field is filled in)**
 - Company registration number
 - **For private individual (company field is empty)**
 - Passport number or individual ID
- two or more nameservers or a nameserver group

After placing the request, the order is processed as follows:

- **If registrant is a company:**
 - Reseller needs to send a company business certificate to Openprovider support via email
 - Openprovider support sends back a registration application form
 - **Entitled person**, mentioned in business certificates, **signs and stamps** the application form
 - Application form can be signed by another person only if document is notarized later
 - **Entitled person**, mentioned in business certificates, **signs and stamps** a copy of business certificate (not older than 6 months)
 - Registrant sends the form and certificate to .bg registry via postal mail
 - Registration application is confirmed or rejected by registry within 45 days since registration request creation in Openprovider
- **If registrant is a person:**
 - Openprovider support sends a registration application form
 - Registrant fills in and signs the form. Form must be notarized
 - As alternative, registrant can sign the form in [.bg registry office](#), instead of notarizing it
 - Registration application is confirmed or rejected by registry within 45 days since registration request creation in Openprovider

NB:

- **Registration documents must be delivered to the registry within 45 days** since domain registration request in Openprovider
 - Failure to comply will result in registration cancelled and domain unavailable for registration for the next 4 days
- **Registration application form is valid for 30 days** - if invalid data is supplied in the form or in domain owner handle, a new application can't be made until previous one expires
- [Bulgarian commercial registry](#)
- [.bg registry terms and conditions.](#)

Transfer

- **Transfer process is almost identical to the registration process** - instead of registration application form a transfer application form should be completed
- ***Application Number is required** : When you register a .bg domain, you get a document that the registrant has to sign, you can find the application number there. It can also be found on the emails sent by the registry such as renewals.

Authorization code required	no
Method of confirmation	forms
Registration period after transfer	unchanged
Average transfer time	Manual process
Advanced and simple transfers available	Contact our Sales department to check if easy transfer of 100 or more .bg domains is available.

Update

Owner change (trade)

- **Trade process is almost identical to the registration process**
This is a manual process, please sent an email to support, indicating the domain and the new registrant handle. Once the trade is requested, a contract will be generated by the registry and supplied to the reseller within a few days. This contract between losing and gaining domain owner must be signed and notarized.
- You can find the Declaration Form for the .bg Trade [here](#).

Other update

- **Domain attributes update** - via RCP. Not real-time, can take up to 2 days to complete

Deletion / Restore

Delete

- **Delete** - via RCP or API

Restore / reactivate

Restore -

Domain can be restored manually within 35 days of expiration.

For restoring .bg domain, Please [Contact Openprovider Support](#)
