

Can I also submit other types of trademarks to the TMCH?

Question

Can I also submit other types of trademarks to the TMCH?

Answer

Through the reseller control panel, you can submit a 'normal' registered trademark to Openprovider for validation by the Trademark Clearinghouse (TMCH).

If the trademark you want to be validated is a *court validated mark* or a *marks protected by statute or treaty*, please contact our support department. In your request, include all details about the mark to be validated. The price is similar to that of a regular trademark.
