

.com.de

This article describes the procedures and requirements of .com.de domain names.
Click on the subject below to open the dropdown for more information.

Registration

Successful domain registration via RCP or API requires:

- the domain's contact handles (owner, administrative, etc.)
- two or more nameservers or a nameserver group

Transfer

The transfer is submitted to the registry and the losing registrar is automatically notified by them.

The losing registrar sends an email to the owner (and optionally admin) contact, informing about the transfer; this may include options to approve and/or deny the transfer. If neither explicitly approved nor denied, the transfer will be automatically finalized after 5 days.

Authorization code required	yes
Method of confirmation	authcode
Registration period after transfer	extends
Average transfer time	5 days
Advanced and simple transfers available	Contact our Sales department to check if easy transfer of 100 or more .com.de domains is available.

Update

Owner change (trade)

- **Trade** - via RCP or API, by updating the owner handle

Other update

- **Domain updates** - via RCP or API.

Deletion / Restore

Delete

- **Delete** - explicit delete is possible via RCP or API.

Restore / reactivate

- **Restore** - via RCP or API

Detailed extension information

Registry	• Registry: ComdeRegistry • Registry whois: whois.centralnic.net • Registry web based whois: https://centralnicregistry.com/support/whois • Registry zonefile updates:
Domain lifecycle	[External embedded content: https://www.openprovider.com/domain-lifecycle/domains.php?ext=com.de]

Technical information	• DNSSEC support: yes • Min characters: 3 • Max characters: 63 • IDN: Yes • Registration period: 1-10 years • Renewal date offset: 0 days <i>The number of days before the registry's expiration date, that Openprovider requires the domain to be renewed or expired. More info.</i> <i>Note that the dates as shown in your Openprovider account are always leading, even if they do not match the renewal date offset mentioned here.</i> • Soft quarantine period: 33 days <i>During this period, following after an expiration, the domain can be restored for free. This period does not apply if the domain is deleted explicitly. More info.</i> • Quarantine period: 28 days <i>During this period, an expired or deleted domain name can be reactivated at an additional fee.</i>
Restrictions	• Local presence required? no • Does Openprovider provide local presence services? no • Local activity required? no • Correct nameserver configuration required? yes • There are no restrictions for .com.de
Policies	• Policies - https://centralnicregistry.com/support/policies • Dispute policy: http://www.denic.de/en/domains/dispute.html
Registration agreement	<i>The registry requires that a registration agreement is in place between the provider and the domain holder. The text of this registration agreement and any required supplements is the following:</i> • General registration agreement

Due to the regular changes in registry rules and configuration or missing information from registry side, and despite our effort to keep our knowledge base up-to-date, information in the knowledge

base may be outdated or incorrect. If you encounter some issue, please report it through the "HotJar" feedback collector on the bottom right, or (if it is blocked by your browser) by clicking the "Submit a request" link below. No rights can be derived from the information in this knowledge base. If there is discrepancy between the knowledge base and the process in Openprovider, the process in Openprovider is leading.
