

.com.py

This article describes the procedures and requirements of .com.py domain names.
Click on the subject below to open the dropdown for more information.

Registration

Successful domain registration via [RCP](#) or [API](#) requires:

- two or more nameservers or a nameserver group

Registration process of **.com.py** domains takes some days.

You just need to wait until the domains are registered.

You will receive notification from the system once the domain is registered.

Transfer

Successful domain transfer requires and email to support with the following details:

- domainname you wish to transfer
- contact-handles
- two or more nameservers or a nameserver group

This is a manual process.

After the transfer is requested by the support team, an email will be send from dnsadmin[at]cnc.una.py to the owner. Do **NOT** process this email yourself, but forward the email to the support department. We will process this further and add the domain to your account once successfully transferred.

Authorization code required	no
Method of confirmation	email
Registration period after transfer	restarts
Average transfer time	

Advanced and simple transfers available

Contact our [Sales department](#) to check if easy transfer of 100 or more .com.py domains is available.

Technical information	• DNSSEC support: no • Registration period: • Renewal date offset: 35 days <i>The number of days before the registry's expiration date, that Openprovider requires the domain to be renewed or expired. More info.</i> • Soft quarantine period: n/a days <i>During this period, following after an expiration, the domain can be restored for free. This period does not apply if the domain is deleted explicitly. More info.</i> • Quarantine period: 0 days <i>During this period, an expired or deleted domain name can be reactivated at an additional fee.</i>
Restrictions	• Local presence required? yes • Does Openprovider provide local presence services? yes • Local activity required? yes • Correct nameserver configuration required? yes • The Domain(s) can be registered without further limitations. • Every domain has to be registered and managed with our free trustee-service.
Policies	
Registration agreement	<i>The registry requires that a registration agreement is in place between the provider and the domain holder. The text of this registration agreement and any required supplements is the following:</i> • General registration agreement

Due to the regular changes in registry rules and configuration or missing information from registry side, and despite our effort to keep our knowledge base up-to-date, information in the knowledge base may be outdated or incorrect. If you encounter some issue, please report it through the "HotJar" feedback collector on the bottom right, or (if it is blocked by your browser) by clicking the "Submit a request" link below. No rights can be derived from the information in this knowledge base. If there is discrepancy between the knowledge base and the process in Openprovider, the process in Openprovider is leading.
