Update

Updates are not real-time and might cost additional charges.

DNS update is not immediate, note changes must propagate through the network, this process can take up to 6-12 hours to complete, until then the domain will still point to the previous DNS servers. Please note TLD is not 100% automated and NS update can take more time, which can also be more than 2 days, taking in mind weekends and public holidays. If the system returns **"Domain update failed: E0102, Domain could not be updated., Identical task is already being processed"** error after NS update try, then please contact [Openprovider support](#) to complete request.
