

This article describes the procedures and requirements of .gf domain names.
Click on the subject below to open the dropdown for more information.

Registration

Successful domain registration via [RCP](#) or [XML API](#) or [REST API](#)

Transfer

Successful domain transfer via [RCP](#) or [XML API](#) or [REST API](#) requires:

- authorization code

Authorization code required	no
Method of confirmation	forms
Registration period after transfer	extends
Average transfer time	Not real-time
Advanced and simple transfers available	Contact our Sales department to check if easy transfer of 100 or more .gf domains is available.

Update

Owner change (trade)

The trade (owner change) is a manual procedure:

- The attached document ([Owner Change Form](#)) needs to be signed by authorised persons the current and new registrant/ domain holders.
- The document must include the company stamps of both the current and new registrant/ domain holders.

Other update

- requested via RCP or [XML API](#) or [REST API](#)
- processed realtime.

Deletion / Restore

Delete

- .gf domains cannot be deleted explicitly.
- To delete a .gf domain you have to set the domain renewal mode to off.

Restore / reactivate

Restores for .gf are not possible.

Due to the regular changes in registry rules and configuration or missing information from registry side, and despite our effort to keep our knowledge base up-to-date, information in the knowledge base may be outdated or incorrect. If you encounter some issue, please report it through the "HotJar" feedback collector on the bottom right, or (if it is blocked by your browser) by clicking the "Submit a request" link below. No rights can be derived from the information in this knowledge base. If there is discrepancy between the knowledge base and the process in Openprovider, the process in Openprovider is leading.
