

.mc

This article describes the procedures and requirements of .mc domain names.
Click on the subject below to open the dropdown for more information.

Registration

Successful domain registration via [RCP](#) or [API](#) requires:

- the domain's contact handles (owner, administrative, etc.)
 - The registrant handle needs to have an address in Monaco. Openprovider does **not** offer a local presence service for Monaco
- two or more nameservers or a nameserver group

Registrations are not automated and are processed manually.

Transfer

The transfer can be initiated through the control panel.

Additional notes on a .mc transfer

-

Authorization code required	yes
Method of confirmation	authcode
Registration period after transfer	restarts
Average transfer time	Around 1 week
Advanced and simple transfers available	Contact our Sales department to check if easy transfer of 100 or more .mc domains is available.

Update

Owner change (trade)

A change of ownership can be done by replacing the owner contact in the control panel.

Other update

A change of contact details can be done by updating the associated handles in the control panel.

Deletion / Restore

Delete

A delete is realtime.

Restore / reactivate

The registry generally doesn't offer a restore for .mc domains but an exception is possible on a case by case basis. Please [contact our support team](#) for assistance.

Detailed extension information

Registry

- Registry: [Direction des Plateformes et des Ressources Numéri](#)
- Registry whois: Not available
- Registry web based whois: <https://www.nic.mc/dispo.php>
- Registry zonefile updates: Real-Time

Due to the regular changes in registry rules and configuration or missing information from registry side, and despite our effort to keep our knowledge base up-to-date, information in the knowledge base may be outdated or incorrect. If you encounter some issue, please report it through the "HotJar" feedback collector on the bottom right, or (if it is blocked by your browser) by clicking the "Submit a request" link below. No rights can be derived from the information in this knowledge base. If there is discrepancy between the knowledge base and the process in Openprovider, the process in Openprovider is leading.
