

.mk

This article describes the procedures and requirements of .mk domain names.
Click on the subject below to open the dropdown for more information.

Registration

Successful domain registration via [RCP](#) or [XML API](#) or [REST API](#) requires:

- Two or more nameservers or a nameserver group.
- For Second Level Domains (.com.mk|.net.mk|.org.mk|.edu.mk|.мкд), signing of a Power of Attorney by the registrant is required prior to completing the registration, where the registrant's contact details will be visible in Whois directly at the registration.

Notes:

- Registration is a manual process and takes up to 14 days.
- The Registrant handle must include a valid **Company VAT ID**, or an **Individual ID Number** for private persons; requests without one of these identifiers will be rejected by the registry.
- All new .mk registrations will use default Whois Trustee.
- If you need to make registrant contact details visible in Whois for .mk domains, it is now possible by making a trade request.
- If the reseller data needs to be visible in WHOIS, then you have to provide a POA (Power Of Attorney) prior or after the registration. If it is after the registration, it will be considered as trade.
- All local and international individuals and legal entities have the right to register .mk and.мкд domains.

Transfer

Successful domain transfer via [RCP](#) or API requires:

- authorisation code
- two or more nameservers or a nameserver group

Authorization code required	yes
Method of confirmation	authcode
Registration period after transfer	unchanged
Average transfer time	14 days
Advanced and simple transfers available	Contact our Sales department to check if easy transfer of 100 or more .mk domains is available.

Update

Owner change (trade)

- Trade is a manual operation
 - Please send an email to support@openprovider.com containing the new registrant handle.
- A POA (Power Of Attorney) is required
 - Power of Attorney: <http://poa.agent.mk>
 - It is possible to download new fillable POA in pdf format.
 - The domain holder needs to fill in the name, address, and domain name and sign it.
 - The registry can assist in pre-filling the POA.
- ID proof: <http://idproof.agent.mk>
 - Information on what is considered to be sufficient ID proof, depending if the registrant is a company or an individual.

Other update

- requested via RCP or API or via support
- not real time. This process can take up to 24 hours to complete, until then the domain will still point to the previous DNS servers.

If it is urgent, please send an email to support@openprovider.com and provide the domain name and new nameservers.

Deletion / Restore

Delete

- Requested via RCP or API

Restore / reactivate

- Send an email to support@openprovider.com and provide the domain name you want to restore.

Detailed extension information

Registry	• Registry: MARnet • Registry whois: whois.marnet.mk • Registry web based whois: http://whois.marnet.mk • Registry zonefile updates:
Technical information	• Available second level domains: .com.mk, .edu.mk, .inf.mk, .net.mk, .org.mk • DNSSEC support: yes • Minimum length: 3 characters • Maximum length: 63 characters • The first and last character can not be a "-" sign (dash) • Registration period: 1-10 years • Renewal date offset: 14 days <i>The number of days before the registry's expiration date, that Openprovider requires the domain to be renewed or expired. More info.</i> • Soft quarantine period: n/a days <i>During this period, following after an expiration, the domain can be restored for free. This period does not apply if the domain is deleted explicitly. More info.</i> • Quarantine period: 0 days <i>During this period, an expired or deleted domain name can be reactivated at an additional fee.</i>

Restrictions	• Local presence required? yes • Does Openprovider provide local presence services? yes • Local activity required? no • Correct nameserver configuration required? no
Policies	• FAQ
Registration agreement	<i>The registry requires that a registration agreement is in place between the provider and the domain holder. The text of this registration agreement and any required supplements is the following:</i> • General registration agreement

Due to the regular changes in registry rules and configuration or missing information from registry side, and despite our effort to keep our knowledge base up-to-date, information in the knowledge base may be outdated or incorrect. If you encounter some issue, please report it through the "HotJar" feedback collector on the bottom right, or (if it is blocked by your browser) by clicking the "Submit a request" link below. No rights can be derived from the information in this knowledge base. If there is discrepancy between the knowledge base and the process in Openprovider, the process in Openprovider is leading.
