

# .mq

This article describes the procedures and requirements of .mq domain names.  
Click on the subject below to open the dropdown for more information.

## Registration

Successful domain registration via [RCP](#) or [XML API](#) or [REST API](#)

## Transfer

The transfer is a manual procedure:

- Document required to be signed and stamped by the Domain Owner.
- No time frame for the transfer, as soon as we receive the document, it will be sent to our provider for review.

**Document:** [Transfer Form](#)

Once the form is filled out, reach out to the support team with the form and the contact handle of the new owner.

|                                                |                                                                                                                 |
|------------------------------------------------|-----------------------------------------------------------------------------------------------------------------|
| <b>Authorization code required</b>             | no                                                                                                              |
| <b>Method of confirmation</b>                  | forms                                                                                                           |
| <b>Registration period after transfer</b>      | <a href="#">extends</a>                                                                                         |
| <b>Average transfer time</b>                   | Not realtime                                                                                                    |
| <b>Advanced and simple transfers available</b> | Contact our <a href="#">Sales department</a> to check if easy transfer of 100 or more .mq domains is available. |

## Update

# Owner change (trade)

- The trade is a manual procedure:
  - Document required to be signed and stamped by the Domain Owner.
  - No time frame for the transfer, as soon as we receive the document, it will be sent to our provider for review.

**Document:** [Trade Form](#)

Once the form is filled out, reach out to the support team with the form and the contact handle of the new owner.

## Other update

- requested via RCP or [XML API](#) or [REST API](#)
- Nameservers updates can be completed instantly or may take up to several days.

### Deletion / Restore

## Delete

- .mq domains cannot be deleted explicitly.
- To delete a .mq domain you have to set the domain renewal mode to off.

## Restore / reactivate

Restores for .mq are not possible.

### Detailed extension information

| <b>Policies</b>              | <ul style="list-style-type: none"> <li>• <a href="#">The registry requires that a registration agreement is in place between the provider and the domain holder. The text of this registration agreement and any required supplements is the following:</a> <ul style="list-style-type: none"> <li>◦</li> </ul> </li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                    |

Due to the regular changes in registry rules and configuration or missing information from registry side, and despite our effort to keep our knowledge base up-to-date, information in the knowledge base may be outdated or incorrect. If you encounter some issue, please report it through the "HotJar" feedback collector on the bottom right, or (if it is blocked by your browser) by clicking the "Submit a request" link below. No rights can be derived from the information in this knowledge base. If there is discrepancy between the knowledge base and the process in Openprovider, the process in Openprovider is leading.
