

.pa

This article describes the procedures and requirements of .pa domain names.
Click on the subject below to open the dropdown for more information.

Registration

Successful domain registration via [RCP](#) or [XML API](#) or [REST API](#) requires:

- Tech-C must be a different person than the Billing-C and the Admin-C.
- To have the same Active domain name under third levels (.com.pa, .org.pa, etc).
- The domain under .PA needs to be registered with the same organization information as the third-level domain.

Transfer

Successful domain transfer via [RCP](#) or [XML API](#) or [REST API](#) requires:

- create and update admin contact through the "Edit Domain" form at <https://nic.pa/en/>
- This change will need to be requested by the current administrative contact.
- Please add the Full Name as Domain Admin & Organization Name as Key-Systems GmbH and also change the email address to **reg-manual@key-systems.net**.

Authorization code required	yes
Method of confirmation	authcode
Registration period after transfer	extends
Average transfer time	Unknown
Advanced and simple transfers available	Contact our Sales department to check if easy transfer of 100 or more .pa domains is available.

Update

Owner change (trade)

The trade (owner change) is a manual procedure:

- To trade a .pa domain, the domain has to be re-registered. Therefore you need a document from the current owner, printed on his official letterhead and signed by a legal representative, which states that they agree to transfer the ownership to the new owner.
- No time frame, as soon as we receive the document, it will be sent to the registry for review.

Other update

- requested via RCP or [XML API](#) or [REST API](#)
- processed realtime

Deletion / Restore

Delete

- .pa domains cannot be deleted explicitly.
- To delete a .pa domain you have to set the domain renewal mode to off.

Restore / reactivate

Restores for .pa are not possible.

Detailed extension information

Registry	• Registry: .pa Registry • Registry whois: whois.marcaria.com • Registry web based whois: https://whois.marcaria.com/en/america/pa-domain-search • Registry zonefile updates: Unknown
----------	--

Technical information	• DNSSEC support: no • Minimum Character length- 2 • Maximum Character length- 63 • Registration period: 2 - 10 year(s) • Renewal date offset: 0 days <i>The number of days before the registry's expiration date, that Openprovider requires the domain to be renewed or expired. More info.</i> • Soft quarantine period: n/a days <i>During this period, following after an expiration, the domain can be restored for free. Registration agreement	<i>The registry requires that a registration agreement is in place between the provider and the domain holder. The text of this registration agreement and any required supplements is the following:</i> • General registration agreement

Due to the regular changes in registry rules and configuration or missing information from registry side, and despite our effort to keep our knowledge base up-to-date, information in the knowledge base may be outdated or incorrect. If you encounter some issue, please report it through the "HotJar" feedback collector on the bottom right, or (if it is blocked by your browser) by clicking the "Submit a request" link below. No rights can be derived from the information in this knowledge base. If there is discrepancy between the knowledge base and the process in Openprovider, the process in Openprovider is leading.
