

.sr

This article describes the procedures and requirements of .sr domain names.
Click on the subject below to open the dropdown for more information.

Registration

Successful domain registration via [RCP](#) or [API](#) requires:

- two or more nameservers or a nameserver group

The actual registration will be done manually by our Support team, so it may take 1-2 working days to be activated.

Transfer

- The current registrar has to request this change at the registry asking the registry to move the domain into the account **registry-liaison@openprovider.nl**.
- Please inform Openprovider to support@openprovider.com as soon as the domains are moved; we will then add them to your account.

Additional notes on a .sr transfer

If the current registrar cannot, or does not want to, cooperate, please send us a letter on the registrant's letterhead, in which the registrant confirms that he wants to transfer his domain to the **registry-liaison@openprovider.nl** customer of the registry.

The registry will check this with the current registrar first, and then proceed with the transfer.

Authorization code required	no
Method of confirmation	registrarpush
Registration period after transfer	unchanged
Average transfer time	1-5 days

Advanced and simple transfers available

Contact our [Sales department](#) to check if easy transfer of 100 or more .sr domains is available.

Update

Owner change (trade)

- Requested by form

Please contact our support department to receive the necessary forms. Once signed, please send them back to our support department for further processing.

Other update

- Manually processed

Send the new DNS or handles to support@openprovider.com and we will manage it manually.

Deletion / Restore

Delete

- Requested via RCP or [API](#)
- processed realtime

Restore / reactivate

- restore / reactivation manually supported

Send an email to support@openprovider.com for restoring a domain.

Detailed extension information

More info.</i> • Soft quarantine period: n/a days <i>During this period, following after an expiration, the domain can be restored for free. This period does not apply if the domain is deleted explicitly. More info.</i> • Quarantine period: 0 days <i>During this period, an expired or deleted domain name can be reactivated at an additional fee.</i>
Restrictions	• Local presence required? no • Does Openprovider provide local presence services? n/a • Local activity required? no • Correct nameserver configuration required? no
Policies	• Terms and Conditions: https://www.register.sr/terms/
Registration agreement	<i>The registry requires that a registration agreement is in place between the provider and the domain holder. The text of this registration agreement and any required supplements is the following:</i> • General registration agreement

Due to the regular changes in registry rules and configuration or missing information from registry side, and despite our effort to keep our knowledge base up-to-date, information in the knowledge base may be outdated or incorrect. If you encounter some issue, please report it through the "HotJar" feedback collector on the bottom right, or (if it is blocked by your browser) by clicking the "Submit a request" link below. No rights can be derived from the information in this knowledge base. If there is discrepancy between the knowledge base and the process in Openprovider, the process in Openprovider is leading.
