

Can I use Openprovider email solution with my mobile device?

Yes, the Openprovider email solution is compatible with mobile devices.

Configure your device's email app with the following settings,

IMAP settings:

Incoming Server: mail.op-email.eu
Port: 993
SSL: Yes

SMTP settings:

Server: mail.op-email.eu
Port: 587 (STARTTLS) [RECOMMENDED] or 465 (SSL/TLS) or 25 (non-SSL, though often blocked)
