November 2025

Domains newsletter - November 2025

Hi there,

Our [Black Friday domain sale](#) is now live, with deals on more than 270 TLDs - including domains that rarely go on sale, such as **.pl**, **.au**, and **.co**. It's the perfect moment to refresh your portfolio and give your customers new ways to stand out online. Take advantage of these deals while you can!

Beyond Black Friday, this newsletter will help you create value for all other times of the year with insights, updates, and opportunities to grow your portfolio, including:

- How today's digital pioneers are using **new gTLDs** to build memorable online identities
- Why **.dk** is a smart addition to any reseller's portfolio - not just in Denmark!
- Industry insights on the growing **.CA** market
- Answers to **five common domain questions** from our support team
- The latest **price and policy updates** from our partner registries

Let's get you ready for a strong finish to the year.

Happy reading!

Your customers can make a mark with new gTLDs

The domain market doesn't stop at .com and .net. **New gTLDs** give today's digital pioneers more ways to stand out and build a memorable online identity.

Why not offer your customers options like these?

- **.icu**: "I see you" - memorable for creators and bold brands.
- **.bond**: premium, trusted, and built for finance and professional services.
- **.cfd**: clothes, fashion, design - ideal for fashion and style portfolios.
- **.sbs**: "side by side" - great for communities and member organisations.
- **.cyou**: "see you" - perfect for personal brands and digital creatives.
- **.buzz**: made for news, trends, events, and attention-driven content.
- **.qpon**: "coupon" - built for deals, e-commerce offers, and promotions.

Even better: these TLDs still offer plenty of availability - including catchy premium names like **hey.icu**, **fans.cyou**, or **secure.bond**.

Openprovider makes it simple to add these domains to your portfolio. Why not start today?

TLD in the spotlight

.dk isn't just for Denmark - it's one of the strongest, most trusted ccTLDs in Europe, and a smart addition for any reseller. With Openprovider, you get **.dk** registrations and renewals at the **cost price of DKK 57.85***, giving you a competitive edge and healthy margins from day one.

Businesses across Scandinavia, the Netherlands, and Germany increasingly register **.dk** domains for **brand protection**, local visibility, and market relevance. It's a simple way for brands to secure their identity in a region known for high-value consumers and strong digital adoption.

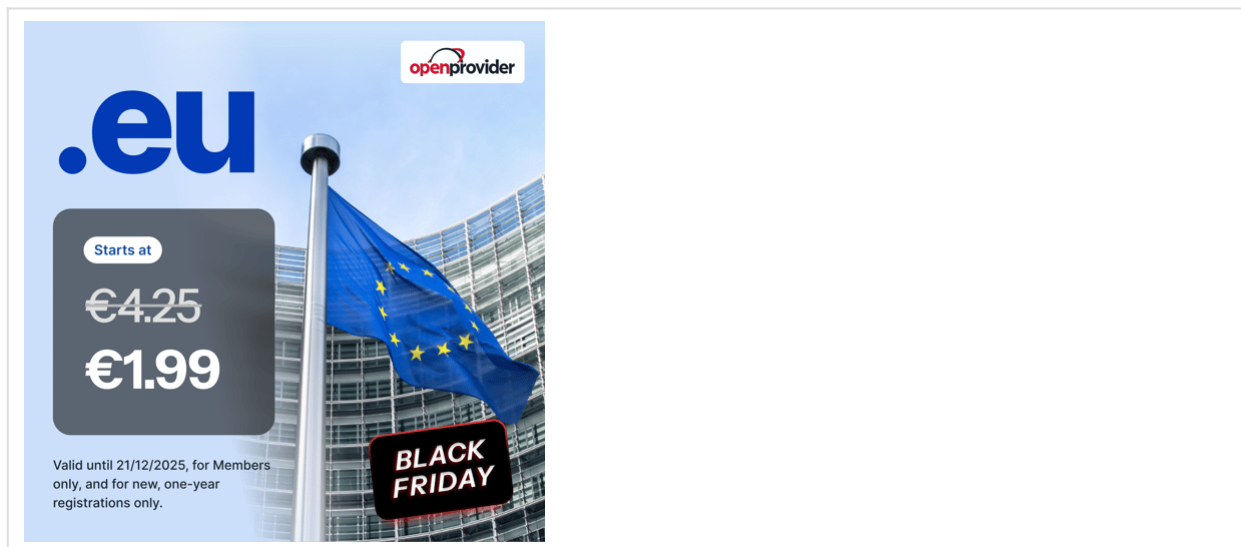

And trust matters: **.dk** is widely viewed as secure, reliable, and credible, making it an attractive option for companies that want to build confidence with customers.

If you're looking to expand your portfolio with a high-trust, high-demand extension - **.dk** is an easy win.

Industry news

5 reasons why every domain reseller should offer .CA domains

Canada's domain market is growing quickly, and .CA is the preferred choice for businesses that want trust, local presence, and better name availability than .com. It's credible, in demand, and offers strong margins for resellers.

And here's a standout fact: 85% of Canadians prefer buying from .CA websites.

Domains: your questions answered

Every month, we discuss several frequently asked questions about domains.

Does Openprovider generate ownership certificates for relevant TLDs?

Yes, this can be done for €15. You can find more details about this process in the [Knowledge Base](#).

I can't transfer out my .uk domain due to the error "Action status prohibited while transfer out". What should I do?

Unlock the domain in the control panel by clicking the lock icon in the top-right corner, then update the IPS tag.

My .se / .nu domain remains in serverHold status, what should I do?

Clone the current handle with the correct info and sync the domain using the new contact handle.

When transferring a .co domain to Openprovider, it remains in status REQ (requested). However, it shows Openprovider (registrar.eu) in the Whois. What should I do?

Contact our [support team](#), and we will finish the transfer for you.

When I try to register a .be domain, I see an error saying "Invalid owner handle! Invalid phone number" in the domain owner details. What should I do?

This means that there is a mistake in the format of the phone number. Always use the format provided by the registry (regular expression) when entering the phone number and postal code.

Registry updates

We have informed you of several price and policy changes in the past month. For your convenience, you can find the following communications back on the control panel newsfeed:

- Restrictions on casino and pharmacy-related terms for .fr, .re, .pm, .tf, .wf, and .yt domains went live on October 29th
- 2026 price increase for .lt, .rodeo, .work, .club, .vip, .biz, .boston, .miami, .beer, .compare, .cooking, .fashion, .fishing, .fit, .garden, .horse, .select, .surf, .vodka, .wedding, .yoga, .ink, .wiki, .courses, .gay, .study, .design, and .health.
- Premium tier adjustment of 1+ million .art domains to take place on November 20th
