openprovider

.me

Extension	Members	Non-Members	Valid Until
.pro	\$3.17	\$4.17	01-01-2024
.life	\$2.68	\$3.17	01-01-2024

The price of .com is set to increase on September 1, 2023

On September 1, 2023, the price of .com is set to increase. The new Member price for registrations and renewals will be \$9.77 per year. The new non-Member price for registrations will be \$10.52 per year, while the price of renewals will increase to \$15.58 per year.

As .com domains can be registered for a period up to 10 years, we recommend to transfer or renew yours before September 1, 2023 to benefit the most from the current price. Save money and transfer or renew your .com today!

More upcoming price changes

Check the newsfeed in the [control panel](#) for an overview of upcoming domain price changes, including various extensions from Radix, XYZ Registry and GRS Domains. You can find the newsfeed in the top right corner of the control panel.

Plesk will continue to support AlmaLinux, RockyLinux and CloudLinux

In response to a [recent announcement by RedHat](#), concerning significant changes to its source code policies, Plesk has announced that they will continue to support AlmaLinux, RockyLinux and CloudLinux, as they promise continued service. For more information, please see [the announcement by RedHat](#).

Security.txt: enhancing your organization's security and transparency

[Security.txt](#) provides website owners and organizations with a clear and user-friendly format to publish their vulnerability disclosure policies and contact details.

Openprovider has already published a security.txt file on our own website, and we hope that more domain owners will follow suit. You can easily generate your own security.txt file on [securitytxt.org](#) and publish it on your website today.

Click [here](#) for more information about security.txt.
