

Newsletter December 2024

Newsletter December 2024

Welcome to the December edition of our newsletter!

As 2024 draws to a close, we're here to help you finish strong and set the stage for a successful new year.

This month, we're kicking things off with important news about upcoming price increases—don't miss your chance to **lock in domains at current rates.**

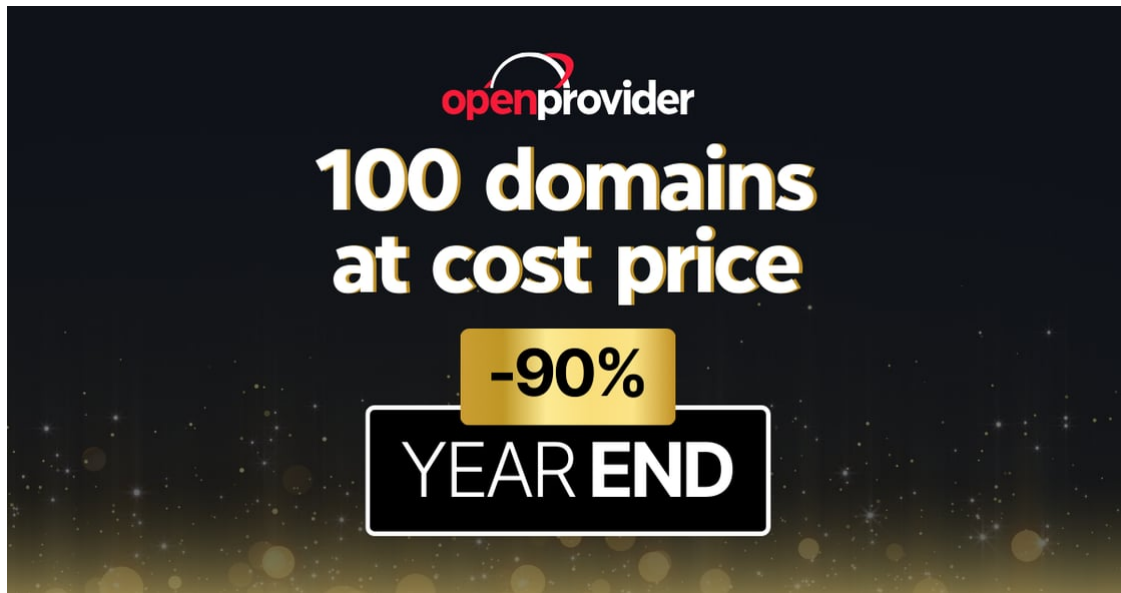

We're also excited to spotlight **Mustafa Aslan, CEO of Snel.com**, in our Customer Recognition Program, where he shares the secrets to delivering a **"9+ service."**

Across the Atlantic, **Openprovider is lighting up Times Square!** Thanks to our partnership with ShortDot, our billboard has been shining in the heart of New York City.

Plus, get updates on the NIS2 Directive, our year-end sale with [90% off Openprovider Basic S Membership](#), exciting TLD promotions, and more.

Grab a festive treat and dive in—happy reading!

[Learn & compare](#)

With Black Friday behind us, it's now time for a final sprint to **finish 2024 on a high!**

With our Year-End Sale, you can kick off a new year of success with domains before January 1 - with 90% off your first year's Openprovider Membership (applies to new Members only), you can spend less on domains, stretch your budgets further, and be more profitable. [Check out the deal!](#)

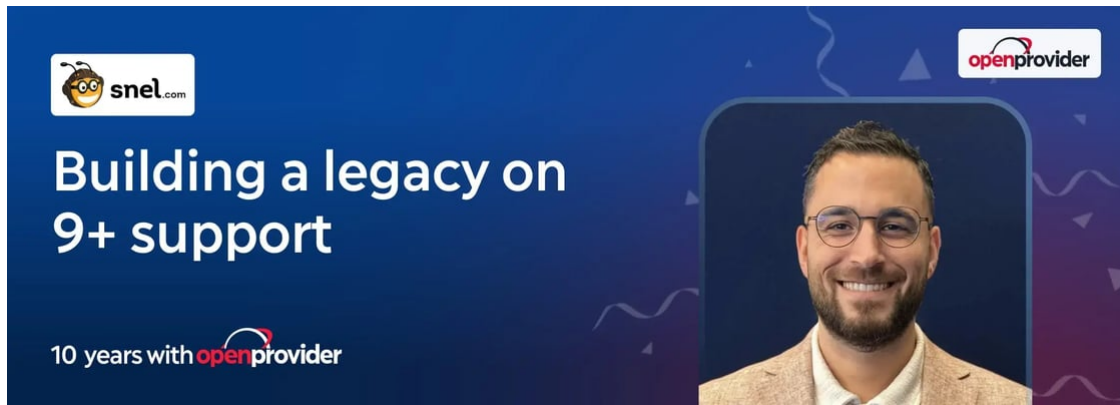

Company updates

Thanks to our great collaboration with ShortDot, our billboard has been lighting up the most coveted marketing location in the world: Times Square!

With a nod to the .icu TLD, our Times Square video alludes to how difficult it is for businesses to find eye-catching website names - this is why resellers, web hosters, and marketing agencies choose Openprovider: a huge selection of niche TLDs at great prices!

Customer Recognition Program

This month we spoke to **Mustafa Aslan**, CEO of Rotterdam-based web hosting company **Snel.com** to find out how it delivers a **9+ service**, its status as a certified **green host**, and the methods he uses to **avoid the dreaded comfort zone**. Read it [here](#).

Update: we're launching a new domain newsletter!

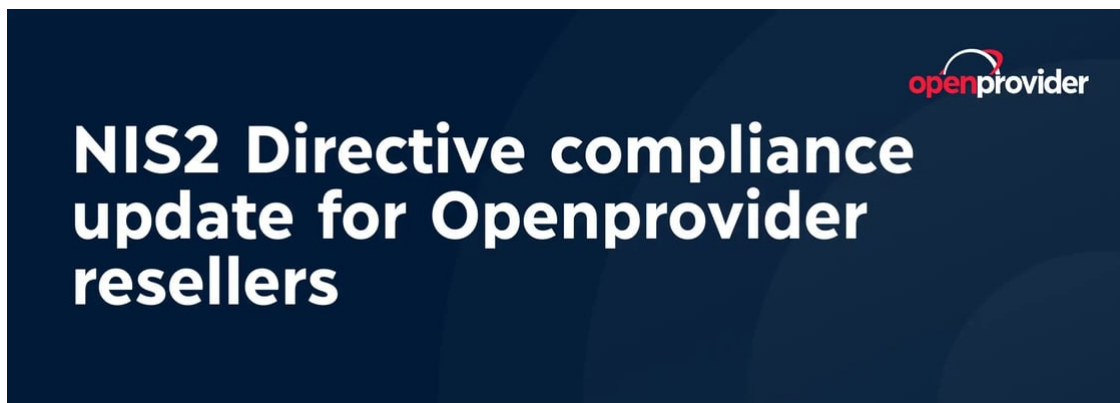

Are you interested in all things domains— such as TLD promotions, new TLD launches, domain industry trends, the NIS2 Directive, and registry policy updates?

Starting January 2025, we'll be launching a newsletter dedicated to domains!

If you're already subscribed to our regular newsletter (company and industry news, cybersecurity updates etc.), you'll automatically receive the domains newsletter to keep you up to date with the best-selling TLDs, special promotions, or news about price changes.

To ensure this newsletter is worthwhile, we would love to hear from you!

Fill out the following [short questionnaire](#) and tell us what you want to know about when it comes to domains.

This article gives you a quick update on the status of various EU ccTLD registries concerning the NIS2 Directive, plus the latest developments in email verification processes at Openprovider. [Click here to read the article.](#)

Update on DNSSEC algorithm and digest type support

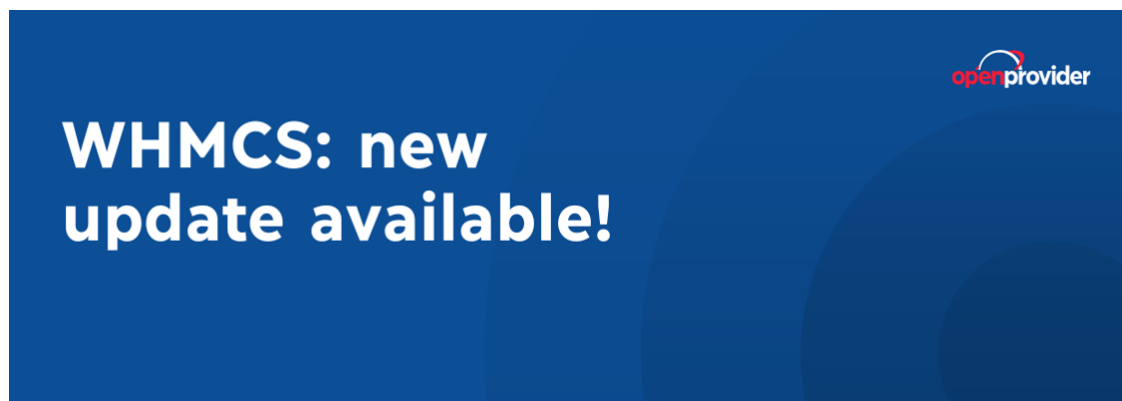

Verisign, the registry of **.com** and **.net** (among others), has updated their supported DNSSEC algorithms and digest types. For **.com** and **.net**, these changes were already implemented on **December 12, 2024**. For **.cc**, **.name**, **.xn--tckwe**, **.xn--mk1bu44c**, **.xn--t60b56a**, and **.xn--9dbq2a**, these changes are scheduled to go live on **December 19, 2024**.

You can find a full overview of what is changing in the newsfeed in our [control panel](#). If you manage DNSSEC for your domains, please make sure you use the supported algorithms and digest types for any new or updated domains.

As 2024 comes to a close, it's the perfect time to reflect on a year filled with milestones, growth, and innovation. Celebrating twenty years in the domain industry, this year has been all about growth and progress—both within our company and beyond.

[Click here](#) to take a look at the highlights that defined Openprovider's best of 2024.

We're excited to announce the beta release of our updated WHMCS module! This new version is compatible with the latest WHMCS version and PHP 8.2 and introduces several updates and fixes to improve your experience.

Interested in beta testing the new module? [Click here to get it on GitHub!!](#)

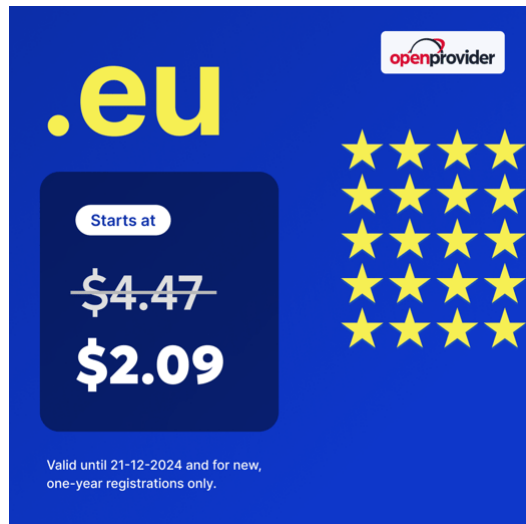

Boost your marketing with MDFs

Marketing Development Funds (MDFs) are financial resources from registries or vendors to support resellers in promoting their services. At Openprovider, we offer plenty of opportunities for you to collaborate on MDFs with our domain registry partners - no matter the size of your business. Even for resellers with a smaller portfolio, we have some great opportunities available!

On December 10, 2024, we held a webinar all about MDFs. You can (re)watch the recording [here](#) and view the slide deck [here](#).

We would love to collaborate with you on MDFs! If you are interested, please contact your account manager.

Domain promotions

Openprovider logo in the top right corner.
