

Increase your balance

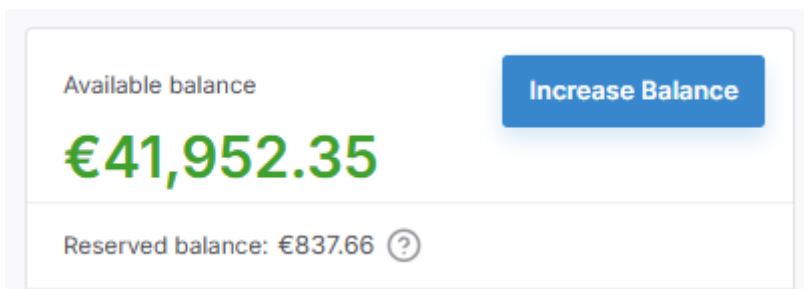

Question

How to increase the balance?

Answer

In order to register a domain name or order any product it is needed to have available balance in the account. Openprovider works with a prepaid balance. The advantage of this is that you will never need to wait for payments to be processed when ordering products.

On the dashboard, there is the currently available balance.

If the balance is insufficient, it can be increased by click on the **Increase Balance** button or by navigating through the menu and selecting **Account** > [Financial](#) > **New payment**.

There are multiple ways to increase the balance, with a minimum payment of 20 of your chosen currency.

Add money

[Payment history](#)

Easily add money to your account with one of our supported payment methods.

1 Select your payment method

Select a method to add money to your account
